## WHAT'S NEW

---

The What's New table lists recent product enhancements and updates that have been integrated into this publication. To review changes electronically, click the links in the **Related Section Links** column.

Enhancement/Update	Description	Related Section Links
User Setup Report Batch Generation	If configured for a company, the PDF and CSV versions of the User Setup Report are batch-generated. Company users are taken to a new <b><i>Search User Setup Reports</i></b> page to retrieve the PDF or CSV version of the report.	<a href="#"><u>View Profile Details for Company Users</u></a>

---

## **ABOUT DIGITAL ONE BUSINESS**

---

Digital One Business is an online banking solution that offers a full suite of features designed to meet the needs of businesses of all sizes — micro business to large corporate clients.

Digital One Business' robust feature set includes: three information reporting services, full transaction initiation with internal and external transfers, ACH, wires, loan payments/advances, and bill payment. Multiple layers of security are available including approvals, limits, token and out-of-band approval.

For optimal system performance the use of Internet browser buttons is disabled in Digital One Business.

# MINIMUM SYSTEM REQUIREMENTS

---

A company user's computer must meet minimum system requirements to use Digital One Business.

## Browser Requirements

- 128-bit encryption
- JavaScript
- Cookies
- Cascading Style Sheets
- Browser page cache should be set to get a new version every visit to the page

## Hardware Requirements

- 1 GHz Celeron processor
- 1024x768 SVGA resolution at 256 colors
- 500 MB RAM
- 128 Kbps (slowest DSL) or better

## **SYSTEM CONSIDERATIONS**

---

- Do not use apostrophes, question marks, semi-colons, or single quotes when entering data into the system.
- Numeric fields support the following characters: 0-9.
- Alphanumeric fields support the following characters: a-z, A-Z, 0-9.
- Alphanumeric fields, except for passwords and user IDs, can contain spaces.

# COMPANY USER SIGN ON

---

## About Sign On

Digital One Business has two authentication methods that reduce the risk of online identity theft: secure token authentication and out-of-band authentication. The authentication method companies use is determined by the financial institution.

Secure token authentication confirms a company user's identity using a personal identification number (PIN) and a token code generated by their token device.

Out-Of-Band Authentication confirms a company user's identity using a one-time security code. The interaction occurs outside the online channel through either an automated voice call or a text message.

## Set Up a New Hardware Token Passcode/PIN

1. Click the appropriate link to access Digital One Business.

2. Complete the following fields:

**Company ID**            Your company's identification number.

**User ID**                Your user identification number.

3. Click the **Set Up Secure Token Sign In** link.

4. Click **Continue**.

5. Type the code currently displayed on your token device into the **Token code or passcode** field and then click **Continue**.

6. Complete the following fields:

**PIN**                      A personal identification number of your choosing. For valid PIN format, please refer to the material you received with your token device or contact your administrator.

**Confirm PIN**            Re-enter the personal identification number you have chosen.

7. Wait for your token device to display the next token code and then click **Sign on**.

8. Type your PIN and the code currently displayed on your token device into the **Passcode** field and then click **Continue**.

## Sign On - Company Users

1. Click the appropriate link to access Digital One Business.

2. Complete the following fields:

**Company ID**            Your company's identification number.

**User ID**                Your user identification number.

3. Click **Continue**.

4. If prompted, complete additional authentication:

a. Click **Continue with Security Code**.

b. Choose a contact option: **Phone** or **Text message** (if applicable).

c. Click **Continue**.

d. Do one of the following: If you chose to be contacted by phone, note the one-time security code shown on the screen and then type or speak the code into the phone once you receive your phone call. If you chose to be contacted by text message, select a **Country/region**, fill in the **Mobile phone number** with your phone number, and then click **Send Text Message**. If the mobile phone number matches a number on record, a text message containing a one-time security code is sent to your phone. In the **One-time security code** field, type the one-time security code displayed on your mobile device and then click **Submit**.

5. Complete one of the following fields:

**Password**                Your password for online banking access.

**Passcode**                Passcodes are only required for tokens. A passcode is combination of the company user's personal identification number (PIN) followed by the token code currently shown on the company user's token.

6. Click **Sign In**.

# COMPANY USER LOGIN CREDENTIALS

---

## Company User ID Requirements

- Should be at least four characters in length but no more than 26.
- Should include a combination of two of the following types of characters:
  - **Letters:** A through Z, upper and/or lower-case. User IDs are not case sensitive.
  - **Numbers:** 0 through 9.
- Cannot be the same ID assigned to another user in the same company.

*Note:* Spaces and special characters are not supported.

## About Company User Passwords

Digital One Business uses strong password controls that require company users to use a combination of special characters, letters, and/or numbers.

Company users are required to change their password the first time they sign on. Company users may also be prompted to set up a Personal Identification Number if their company uses tokens for authentication at sign-on.

## Company User Password Requirements

### Temporary & Enrollment Passwords

The following requirements apply to temporary passwords (issued by a company administrator or financial institution) and passwords created by company users during enrollment into Digital One Business:

- Must be at least eight characters in length but no more than 12.
- Must include a combination of two of the following types of characters:
  - **Letters:** A through Z or a through z; temporary/enrollment passwords are not case sensitive.
  - **Numbers:** 0 through 9

- **Special characters: # \$ @**
- Cannot include more than three consecutive identical characters. For example, t@llllama is not allowed but t@lllama is.
- Cannot be the same as the associated user ID.

Temporary/enrollment passwords can be one of 15 previously used passwords.

## Standard Passwords

The following requirements apply to company user passwords that **are not** temporary (issued by a company administrator or financial institution) or created through enrollment into Digital One Business:

- Must be at least eight characters in length but no more than 12.
- Must include a combination of three of the four following types of characters:
  - **Upper case letter: A through Z**
  - **Lower case letter: a through z**
  - **Numbers: 0 through 9**
  - **Special characters: # \$ @ ! % ^ & \* ) ( \_ + = | / ? ; : . } { - [ ]**
- Cannot include more than three consecutive identical characters. For example, t@llllama is not allowed but t@lllama is.
- Cannot be the same as the associated user ID.
- Cannot be one of 15 previously used passwords. The exception to this requirement is temporary passwords issued by company administrators or financial institutions.

## Company User Password Expiration

### Temporary Passwords

Temporary passwords (issued by a company administrator or financial institution) expire 10 days from the date they were issued/created.

### Enrollment & Standard Passwords

Standard (non-temporary) passwords and passwords created by company users during enrollment into Digital One Business expire 90 days from the date they were issued/created.

# Company User Password Changes

Company users can change their own password once per day. This applies to all company users regardless of their assigned role.

## Subsequent Password Changes

Company users who have changed their own password and need it changed again in the same day should contact their company's administrator or financial institution for a temporary password.

Once company users sign on using a temporary password they are required to change it.

## Password Alerts

Company users are automatically notified by e-mail when they change their password or their password is changed by an administrator.

# Login Attempts and Locked Accounts

Company users are allowed three unsuccessful login attempts before their account is locked and access is prevented.

A locked account can be unlocked by:

- **A company user who has the Administration role.** A password change is not required in this case.
- **The company's financial institution.** Company users are provided a temporary password and are required to change it upon signing on.
- **The company user whose account is locked.** A *Locked Password* page is presented during sign-on to a company user who has a locked or inactive status and:
  - Out-of-Band Authentication is enabled for their company.
  - Token Authentication is not enabled for their company.

**Note:** *Passwords can only be reset once per day. A company user whose account has been locked by a company administrator cannot reset their password. The Locked Password page may not be available to all companies*

## About Forgotten Password

Forgotten Password allows company users to create a new password if they have forgotten their password.

## Create a New Password Using Forgotten Password

1. Go to the sign on page and complete the following fields:

**Company ID**            Your company's identification number.

**User ID**                Your user identification number.

2. On the password page, click the **Forgot your password?** link.

3. Click **Continue**.

4. Click **Continue with Security Code**.

5. Choose a contact option: **Phone** or **Text message (if applicable)**.

6. Click **Continue**

7. Do one of the following:

- If you chose to be contacted by phone, note the one-time security code shown on the screen and then type or speak the code into the phone once you receive your phone call.
- If you chose to be contacted by text message, select a **Country/region**, fill in the **Mobile phone number** with your phone number, and then click **Send Text Message**. If the mobile phone number matches a number on record, a text message containing a one-time security code is sent to your phone.
- In the **One-time security code** field, type the one-time security code displayed on your mobile device and then click **Submit**.

8. Complete the following fields:

**New password**            Create a password following the [Company User Password Requirements](#).

**Confirm new password**            The password typed into the **New password** field.

9. Click **Submit**.

10. Click **Continue**.

## About Hardware Tokens

A hardware token is a device that generates a one-time, random authentication code which is paired with a company user-defined personal identification number (PIN) to form a passcode. The passcode is used by company users to:

- Sign on to Digital One Business.
- Approve ACH transactions and/or wire transfers (if entitled).

For RSA® and VASCO DIGIPASS® GO series hardware tokens, the passcode is combination of the company user's personal identification number (PIN) followed by the token code currently shown on the company user's hardware token device. For VASCO DIGIPASS® 200 - 300 series hardware tokens, the passcode is just the token code generated by the token device.

### Grace Setup Period for Hardware Tokens

The grace setup period is the number of calendar days the financial institution and company administrators (if applicable) have to set up and distribute hardware tokens to company users. Company users can continue to use their password to sign on and approve transactions during the grace setup period. When a company's grace setup period ends, all users in the company must use their hardware token device to sign on and/or approve transactions (if applicable).

## Unlock Hardware Token PINs - RSA

Please contact your financial institution to reset your hardware token PIN.

## Unlock Hardware Token PINs - VASCO

**Note:** *This capability may not be available to all Administrators.*

1. Click **Administration > Company Administration > Manage Users**.
2. Click the **System Access** link beside the company user whose PIN you want to unlock.
3. In the **User Secure Token Maintenance** section, click the **clear token PIN** link.
4. Click **Clear PIN**.

## About Software Tokens

Software tokens provide two-factor authentication by using a company user's sign-on credentials with the dynamic passcode created by the software token app installed on the company user's mobile device. The passcode is used by company users to:

- Sign on to Digital One Business.
- Approve ACH transactions and/or wire transfers (if applicable).

### Grace Setup Period for Software Tokens

Software tokens do not have a grace setup period. Once a company user has a software token service assigned to them, they are prompted to complete activation at their next login.

## Software Token App

The software token app is available for download in the Apple App Store® and Google Play™ store; an internet connection is required. Once downloaded, the software token app requires activation through Digital One Business; the mobile device must have a camera for the activation process.

## About Software Token Activation - VASCO

After the software token app is downloaded from an app store, it requires activation through Digital One Business. Company users are required to complete the activation process for each device they want to use for software tokens. Activation is also required when a company user replaces their mobile device or resets/restores it to the factory settings.

**Note:** *If a company user exits the activation process and/or closes the software token app before completing activation, a software token license does not get assigned to them. The company user can resume activation in a subsequent Digital One Business session.*

### Activation for Transaction Approval

Company users who only have the Soft Token Approval service assigned to them can continue to sign on to Digital One Business without completing software token activation — postponing activation. However, company users who postpone activation are prompted to complete activation at every subsequent login and cannot approve an ACH or wire transaction until they do so.

## Activation for Sign-On and Transaction Approval

Company users who have both Soft Token Authentication and Soft Token Approval services must complete activation at sign-on otherwise they cannot access Digital One Business. Once the company user completes the activation at sign-on they are not required to complete activation again when approving an ACH or wire transaction.

## Company Users with Temporary Passwords

Company users are required to complete software token activation if they have a software token service assigned to them and are signing on to Digital One Business with a temporary password.

# Activate Software Tokens

**Prerequisites:** To complete this task you must have the software token app installed on your mobile device.

Use Digital One Business to complete activation for both the Soft Token Authentication and Soft Token Approval services

1. Validate your identity by [signing on](#) to Digital One Business with your existing credentials.
2. Open the software token app on your mobile device and tap **Activate your DIGIPASS**. Your mobile device's camera should now be active.

**Note:** *The Activate your DIGIPASS button might be named differently for your company.*

3. Use your mobile device's camera to scan the QR code shown on the *Set Up Software Token Sign On* page and then click **Continue**.

A unique device code should appear within the software token app on your mobile device.

4. Type the device code displayed on your mobile device into the **Instance Activation** field on the *Set Up Software Token Sign On* page and then click **Continue**.

**Note:** *The Instance Activation field might be named differently for your company.*

5. On your mobile device, tap **Scan online image**.

Your mobile device's camera should now be active.

6. Use your mobile device's camera to scan the second QR code shown on the *Set Up Software Token Sign On* page and then click **Continue**.

7. Within the software token app on your mobile device, choose how you want to validate your identity each time you access the software token app: **Password** or **Fingerprint scan**.

Your first software token passcode is shown on the software token app.

8. Type the passcode shown on the software token app into the **One time password** field on the *Set Up Software Token Sign On* page and then click **Continue** to sign on to Digital One Business.
9. Tap **OK** on the software token app on your mobile device to complete the activation.

# ENROLLMENT

---

## About Enrollment

Enrollment is an optional feature which must be entitled by the financial institution. If entitled, enrolling online begins the process of setting up Digital One Business account information.

For security purposes, the company ID only appears on the enrollment confirmation and is not included in the Welcome e-mail after you complete your enrollment. Please make a note of this ID as it is needed to sign on.

## Enroll in Digital One Business

1. On the sign on page, click the **Enrollment Page** link.
2. Complete the **Login Credentials** fields:

**User ID** Type a user identification number using the [Company User ID Requirements](#).

**Enter password** Type a password using the [Company User Password Requirements](#).

**Confirm password** Type the password you defined in the **Enter password** field

3. Complete the **Company Information** fields:

**Company name** Your company name (up to 40 alphanumeric characters).

**First name** Your first name (up to 50 alphanumeric characters).

**Last name** Your last name (up to 50 alphanumeric characters).

**Title (optional)** Your title within your company (up to 30 alphanumeric characters).

**Telephone number** Phone number (up to 13 numeric characters).

**Fax (optional)** Fax number (up to 12 numeric characters).

**Email address** E-mail address (up to 50 alphanumeric characters).

**Address line 1** First line of the address (up to 30 alphanumeric characters).

**Address line 2** Second line of the address (up to 30 alphanumeric characters).

<b>City</b>	City (up to 20 characters).
<b>State/Province</b>	A predefined list of states and provinces.
<b>Zip code</b>	The ZIP code for the city typed in the <b>City</b> field.
<b>Country</b>	Canada or United States.

4. Complete the **Account Information** fields:

<b>ABA/TRC</b>	Your financial organization's Transit Routing Code. This number is used to identify your financial organization and can be found on your checks or checking account statement.
<b>Account Number</b>	The number of the account (up to 17 numeric characters).
<b>Description</b>	Text describing account (up to 40 alphanumeric characters).
<b>Account Type</b>	Checking or Savings.

a. **Optional:** To add more accounts, click the **Add another account** link.

5. **Optional:** If applicable, select the **Additional Banking Services** options.
6. Click **Continue**.
7. Review the service agreement as needed and then click **Agree**.
8. Take note of the **Company ID**.

# WELCOME

---

## About the Welcome Page

The *Welcome* page appears upon a company user's successful sign on and provides an at-a-glance view of important information.

## Welcome Page Components

Item Number	Item Description
1	The user greeting, the date and time the user last accessed the system, and SignOff link.
2	The main navigation menu.
3	The favorites icon. User can click this to access links to their favorite pages.
4	The product name banner with global navigation links. This banner is displayed above every Digital One Business page.

The **Approvals** link allows users to view pending approvals for transfers, transactions, templates, schedules, account reconciliation items, positive pay items, ACH/wire files, and user administration.

The **Exceptions** link allows users to view and act on ACH and/or check positive pay exceptions awaiting decision or approval.

- 
- 5 The **Display options** link allows users to choose the accounts they want displayed in the **Account Summary** section and the order in which they are displayed.

The **Balances** link provides users with explanations of different balance types such as available and accessible.

---

Item Number	Item Description
6	The Account Summary section. Users can click the accounts to go to their entitled reporting service to view activity.
7	The Exception Decisions section shows ACH and/or check positive pay exceptions awaiting decision or approval. Users can click the exceptions to go to the <i>Manage Exceptions</i> page.
8	<p>The <b>Alerts and Message section</b> where alerts, bank mail, and bulletin messages appear. Clicking an alert or mail message presents the message in a modal dialog window on the <i>Welcome</i> page. Users can click the <b>View All</b> link to go to the <i>Received Mail and Alerts</i> page.</p> <p>When a user has not received alerts and bank messages in the last seven days, the following message is displayed: You have received no alerts or bank messages within the last seven days.</p>
9	All saved reports/searches. Saved reports are available to users who have the Deposit Account Reporting (Premium Reporting) service.
10	The Contact Us section includes your institution's contact information and bank home page link.
11	The footer area includes links to your institution's disclosure and privacy documents and any brandable footer content.

## Welcome Page Sample

The screenshot shows the 'My Brand' welcome page with the following components and callouts:

- 1:** User profile and navigation links (Hi, Jane | SignOff, Last Login: Jun 9, 2020, 3:24:34 PM ET)
- 2:** Administration menu item
- 3:** My Brand logo
- 4:** Approvals and Exceptions links
- 5:** Display Options and Balances links
- 6:** Accounts Summary table
- 7:** Exception Decisions section
- 8:** Alerts and Messages section
- 9:** Saved Reports section
- 10:** Contact Us button
- 11:** Footer area containing Disclosure, Privacy Statement, and Equal Housing Lender logo

# MAIL

## About Mail

Mail is used to exchange secure messages between company users and financial institutions in Digital One Business.

Mail messages are displayed for 90 days, after which they are archived for three years. Mail messages are automatically deleted after 90 days.

## Read Received Mail Messages

1. Click **Administration > Communications > Mail and Alerts**.
2. Click the link in the **Subject** column for message you want to view.

Received Mail - Message Detail Page Sample

# ALERTS

---

## About Alerts

Alerts are messages that inform company users that a specific event has taken place.

Alert messages are displayed in Digital One Business for 90 days, after which they are archived for three years. Alerts are not automatically deleted.

Alerts are delivered in Digital One Business optionally through e-mail and SMS text (if available). Alerts are always sent to company users in their Digital One Business mailbox. Company users can also have alerts delivered to their primary and/or secondary e-mail address and/or mobile telephone number (if applicable).

There are many alerts available to help companies reduce the risk of fraud stay on top of account, transaction, and user activity. The combination of user roles, services, and account entitlements determine the alerts available to company users. Messages are delivered throughout the day depending on the topic and when the information is available. Mandatory alerts notify company users of important events and cannot be turned off. Mandatory alerts appear with a check mark and cannot be deleted.

The *Manage Alerts* page provides a central area for company users to manage their alert subscriptions. It includes the following categories of alerts: Account Alerts, Non-account Alerts, Multiple Accounts, and Custom Alerts.

Account Alerts are divided into the following subcategories:

- Balance and Activity
- Transfer and Payment
- Account Reconciliation & Positive Pay
- Stop Payment
- Statement and Document
- Wire Transfer

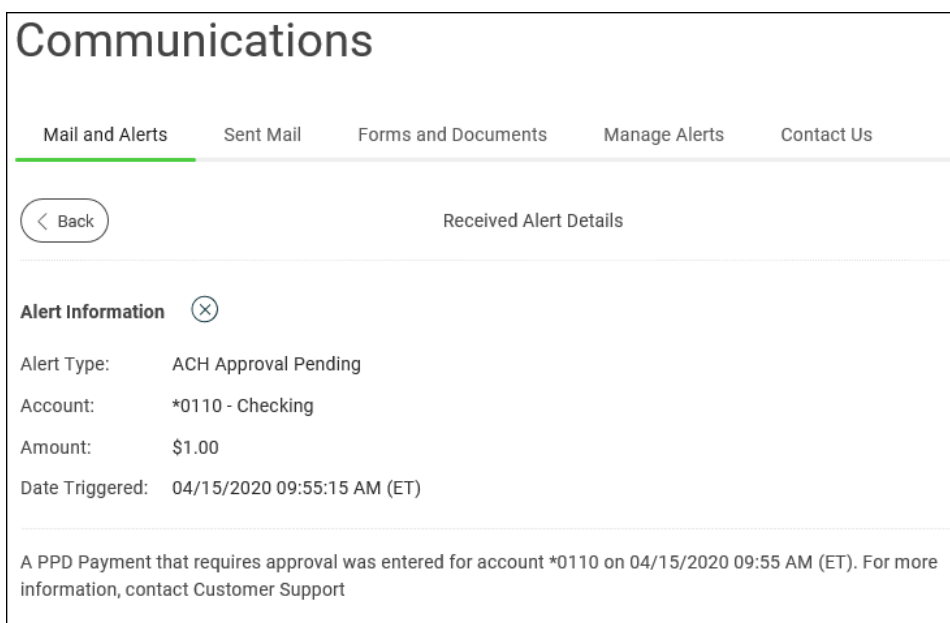

Non-account alerts are not sub-categorized. Custom alerts are notifications that company users define and are ideal for setting up reminders for something such as payroll.

Digital One Business offers two alerts services; basic and premium.

## Read Received Alert Messages

1. Click **Administration > Communications > Mail and Alerts**.
2. Click the link in the **Subject** column for alert you want to view.

User Profile Activity Alert Page Sample

## Subscribe to Account Alerts

1. Click **Administration > Communications > Manage Alerts**.
2. Click the **Account Alerts** tab.
3. Select an **Account**.
4. Click the add icon (⊕) beside the alert subscription you want to add. The table row expands, showing the alert description and delivery options.
5. If applicable, enter alert criteria.
6. Click the check box beside each **Send To** option to which you want the alert sent. The **Send To** option does not appear if an email or mobile telephone (if applicable) is not defined.
7. Click **Add**.

## Subscribe to Custom Alerts

1. Click **Administration > Communications > Manage Alerts**.
2. Click the **Custom** tab.
3. Click the **Add New Alert** link.
4. Type the **Subject** (up to 120 alphanumeric characters).
5. Type the **Alert Message** text.
6. Select one or more **Send to** options.
7. Select a **Frequency**:

**One time**                      Sends the alert once on a date in the future.

**Weekly**                        Sends the alert on the same day each week. The date provided in the **Next Send On** field determines the day on which the alert is sent.

<b>Every other week</b>	Sends the alert on the same day every other week. The date provided in the <b>Next Send On</b> field determines the day on which the alert is sent.
<b>Twice a month - the 15th and last day of the month</b>	Sends the alert on the 15th and last day of the month.
<b>Monthly</b>	Sends the alert on the same date every month. The date provided in the <b>Next Send On</b> field determines the day on which the alert is sent.
<b>Monthly - last day of the month</b>	Sends the alert on the last day of each month.
<b>Every three months</b>	Sends the alert on the same day every three months. The date provided in the <b>Next Send On</b> field determines the day on which the alert is sent.
<b>Every three months - last day of the month</b>	Sends the alert on the last day of the month, every three months.
<b>Every six months</b>	Sends the alert on same day every six months. The date provided in the <b>Next Send On</b> field determines the day on which the alert is sent.
<b>Every six months - last day of the month</b>	Sends the alert on the last day of the month, every six months.
<b>Yearly</b>	Sends the alert on the same date every year. The date provided in the <b>Next Send On</b> field determines the day on which the alert is sent.
<b>Custom</b>	Sends the alert on unique <b>Send On</b> dates. At least one date is required but up to 25 custom dates can be scheduled at one time.

8. If applicable, type or select a **Next Send On** date.

9. If applicable, type or select an **End On** option:

- Continue indefinitely
- Continue until this date
- Continue for this many occurrences. Specify when you want to stop receiving the alert based on the number of times it is delivered.

10. Click **Add Alert**.

**Manage Alerts Page Sample**

## Change Alert Subscriptions

1. Click **Administration > Communications > Manage Alerts**.
2. Click the **Account**, **Non-Account**, or **Custom** tab.
3. For account alerts, select an **Account**.
4. For account and non-account alerts, click the edit icon () beside the alert subscription you want to change. For custom alerts, click the more actions icon () and then click **Edit**.
5. Change the alert as needed and then click **Save** or **Save Changes** (depending on the alert type).

## Delete Alert Subscriptions

1. Click **Administration** > **Communications** > **Manage alerts**.
2. Click the **Account**, **Non-Account**, or **Custom** tab.
3. For account alerts, select an **Account**.
4. For account and non-account alerts, click the delete icon () beside the alert subscription you want to delete. For custom alerts, click the more actions icon () and then click **Delete**.

Notifies company users when a notice is available.

The Notice Available alert is mandatory for company users with the Administration role.

#### Requirements

Service	Role	Account Type	Account Entitlement
Statements and Documents	N/A	Analysis, Checking, Certificate of Deposit, Loan or Savings	Entitled Account

## Non-account Alerts

### Account Closure Alert

Notifies company users when a checking or savings account is unavailable for use.

The Account Closure alert is optional.

#### Requirements

Service	Role	Account Type	Account Entitlement
N/A	Administration	N/A	N/A

### Account Management Request Submitted Alert

Notifies company users when an account management request has been submitted.

The Account Management Request Submitted alert is mandatory.

#### Requirements

Service	Role	Request Type	Entitlement
Account Management	N/A	Open, Modify, and/or Close	N/A

## Account Management Request Completed Alert

Notifies company users when an account management request has been completed.

The Account Management Request Completed alert is mandatory.

### Requirements

Service	Role	Request Type	Entitlement
Account Management	N/A	Open, Modify, and/or Close	N/A

## Account Management Request Pending Approval

Notifies company users when an account management request requires approval.

The Account Management Request Pending Approval alert is mandatory.

**Note:** *Company users receive this alert even if they have already provided an approval.*

### Requirements

Service	Role	Request Type	Entitlement
Account Management	N/A	Open, Modify, and/or Close	N/A

## Account Management Request Completed Alert

Notifies company users when an account management request requires action by the user who submitted the request.

The Account Management Request Awaiting Action alert is mandatory.

### Requirements

Service	Role	Request Type	Entitlement
Account Management	N/A	Open, Modify, and/or Close	N/A

## Account Management Request Canceled

Notifies company users when an account management request is canceled.

The Account Management Request Canceled alert is mandatory.

### Requirements

Service	Role	Request Type	Entitlement
Account Management	N/A	Open, Modify, and/or Close	N/A

## Account Management Request Rejected Alert

Notifies company users when an account management request is rejected.

The Account Management Request Rejected alert is mandatory.

### Requirements

Service	Role	Request Type	Entitlement
Account Management	N/A	Open, Modify, and/or Close	N/A

## ACH File Upload Approval Pending Alert

Notifies company users when an uploaded ACH file requires approval.

The ACH File Upload Approval Pending alert is optional.

**Note:** *Company users receive this alert even if they have already provided an approval.*

### Requirements

Service	Role	Account Type	Account Entitlement
ACH File Upload	Approval	N/A	N/A

## ACH File Upload Validation Failure Alert

Notifies company users when an uploaded ACH file fails validation.

The ACH File Upload Validation Failure alert is optional.

### Requirements

Service	Role	Account Type	Account Entitlement
ACH File Upload	N/A	N/A	N/A

## ACH Notice of Change Received Alert

Notifies company users when an ACH Notice of Change file is received.

The ACH Notice of Change Received alert is optional.

### Requirements

Service	Role	Account Type	Account Entitlement
ACH Reporting and any one of the following services: <ul style="list-style-type: none"><li>• ACH File Upload</li><li>• CCD Collection</li><li>• CCD Payment</li><li>• CTX Collection</li><li>• CTX Payment</li><li>• Federal Tax</li><li>• PPD Collection</li><li>• PPD Payment</li><li>• State Tax</li><li>• STP 820 Payment</li><li>• TEL Collection</li><li>• WEB Collection</li></ul>	Setup	N/A	N/A

## ACH Returns Report Available Alert

Notifies company users when an ACH Returns report is available.

The ACH Returns Report Available alert is optional.

### Requirements

Service	Role	Account Type	Account Entitlement
ACH Reporting	N/A	N/A	N/A

## Company Stale Date Alert

Notifies company users when their company's stale date setting is changed.

The Company Stale Date alert is optional.

### Requirements

Service	Role	Account Type	Account Entitlement
Positive Pay or Full Account Recon	Administration	N/A	N/A

## Decision File Approval Pending Alert

Notifies company users when a decision file requires approval.

The Decision File Approval Pending alert is optional.

**Note:** *Company users receive this alert even if they have already provided an approval.*

### Requirements

Service	Role	Account Type	Account Entitlement
Positive Pay or Reverse Positive Pay	Approval	N/A	N/A

## Decision File Import Completed With Errors Alert

Notifies company users when a decision file is imported with errors.

The Decision File Import Completed With Errors alert is optional.

### Requirements

Service	Role	Account Type	Account Entitlement
Positive Pay or Reverse Positive Pay	N/A	N/A	N/A

## Decision File Import Failed Alert

Notifies company users when a decision file fails to import because the format is incorrect.

The Decision File Import Failed alert is optional.

### Requirements

Service	Role	Account Type	Account Entitlement
Positive Pay	N/A	N/A	N/A

## E-mail Address Changed Alert

Notifies company users when their e-mail address is changed.

The E-mail Address Changed alert is mandatory.

### Requirements

Service	Role	Account Type	Account Entitlement
N/A	N/A	N/A	N/A

## File Available for Download

Notifies company users when a new file is available for download.

The File Available for Download alert is optional.

### Requirements

Service	Role	Account Type	Report Entitlement
File Download (Downloadable Reports)	N/A	N/A	Receive

## Help Alert

An automatic response sent to company users who request help from their mobile device.

The Help alert is mandatory.

### Requirements

Service	Role	Account Type	Account Entitlement
N/A	N/A	N/A	N/A

## Issue File Approval Pending Alert

Notifies company users when an issue file is pending approval.

The Issue File Approval Pending alert is optional.

**Note:** *Company users receive this alert even if they have already provided an approval.*

### Requirements

Service	Role	Account Type	Account Entitlement
Full Account Recon or Positive Pay	Approval	N/A	N/A

## Issue File FTP Completed with Errors Alert

Notifies company users when a check issue file is transmitted through file transfer protocol (FTP) but has errors.

The Issue File FTP Completed with Errors alert is optional.

### Requirements

Service	Role	Account Type	Account Entitlement
Full Account Recon or Positive Pay	N/A	N/A	N/A

## Issue File FTP Completed with Notes Alert

Notifies company users when a check issue file is transmitted through file transfer protocol (FTP) and provides details for some records in the file. For example, when a record is successfully uploaded but has a zero dollar amount.

The Issue File FTP Completed with Notes alert is optional.

### Requirements

Service	Role	Account Type	Account Entitlement
Full Account Recon or Positive Pay	N/A	N/A	N/A

## Issue File FTP Failed Alert

Notifies company users when a check issue file fails to transmit through File Transfer Protocol (FTP).

The Issue File FTP Failed alert is optional.

### Requirements

Service	Role	Account Type	Account Entitlement
Full Account Recon or Positive Pay	N/A	N/A	N/A

## Issue File FTP Successful Alert

Notifies company users when a check issue file is successfully transmitted through File Transfer Protocol (FTP).

The Issue File FTP Successful alert is optional.

### Requirements

Service	Role	Account Type	Account Entitlement
Full Account Recon or Positive Pay	N/A	N/A	N/A

## Issue File Import Completed With Errors Alert

Notifies company users when an issue file is imported with errors.

The Issue File Import Completed With Errors alert is optional.

### Requirements

Service	Role	Account Type	Account Entitlement
Full Account Recon or Positive Pay	N/A	N/A	N/A

## Issue File Import Failed Alert

Notifies company users when an issue file fails to import because the format is incorrect.

The Issue File Import Failed alert is optional.

### Requirements

Service	Role	Account Type	Account Entitlement
Full Account Recon or Positive Pay	N/A	N/A	N/A

## New Balance Account Alert

Notifies company users daily when a new account is available.

The New Balance Account alert is optional.

### Requirements

Service	Role	Account Type	Account Entitlement
N/A	N/A	N/A	N/A

## Password Changed Alert

Notifies company users when a user's password is successfully changed.

The Password Changed alert is mandatory.

### Requirements

Service	Role	Account Type	Account Entitlement
N/A	N/A	N/A	N/A

## Stop/SMS Opt Out Alert

Confirmation message for users who opt out of receiving text message alerts.

The Stop/SMS Opt Out alert is mandatory.

### Requirements

Service	Role	Account Type	Account Entitlement
N/A	N/A	N/A	N/A

## Telephone Number Changed Alert

Notifies company users when they add or change a telephone number.

The Telephone Number Changed alert is mandatory.

### Requirements

Service	Role	Account Type	Account Entitlement
N/A	N/A	N/A	N/A

## Updated User Entitlements Alert

Notifies company users when their service entitlements have changed.

The Updated User Entitlements alert is optional.

### Requirements

Service	Role	Account Type	Account Entitlement
N/A	N/A	N/A	N/A

## User Profile Activity Alert

Notifies a company's administrator when a company user profile is added, changed, or deleted by another company administrator.

The User Profile Activity alert is optional.

### Requirements

Service	Role	Account Type	Account Entitlement

Welcome message for company users who opt in for SMS message alerts.

The Welcome/SMS Opt In alert is mandatory.

### Requirements

Service	Role	Account Type	Account Entitlement
N/A	N/A	N/A	N/A

# SELF ADMINISTRATION

---

## Change a Password - Company Users

Change the password you use to access Digital One Business. Company users can change their own password once per day.

1. Click **Administration > Self Administration > Change Password**.
2. Complete the following fields:

- |                         |  |
|-------------------------|--|
| <b>Current Password</b> | Your existing password.  |
| <b>New Password</b>     | Create a password following the <a href="#">Company User Password Requirements</a> . |
| <b>Confirm Password</b> | The password typed into the <b>New Password</b> field.                               |

Change Password Page Sample

3. Click **Update Password**

## Locked Passwords

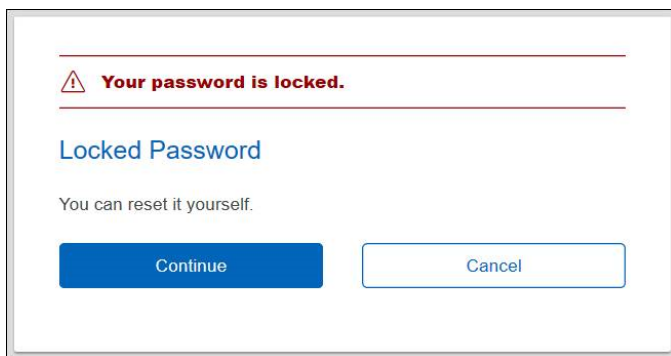

Company users with a locked or inactive status can reset their own password during their sign on to Digital One Business. Company users can change their own password once per day.

A locked user is someone who has entered their password incorrectly three times consecutively. An inactive user is someone who has not signed on to Digital One Business for 90 days (or 10 days with a temporary password).

**Note:** *This function might not be available to some company users. A company user who is locked by a company administrator cannot unlock themselves.*

If your Digital One Business is locked or inactive, a *Locked Password* page is displayed during your sign-on.

### Locked Password Page Sample

Clicking **Continue** takes a company user through the authentication step (described in [Sign On - Company Users](#) section of this document) and then to a page where their password can be reset.

## Change My E-mail Addresses - Company Users

1. Click **Administration > Self Administration > Personal Preferences**.
2. Click the edit icon () beside the email address you want to change.
3. Change the **Primary Email Address** and/or **Secondary Email Address** as needed. Up to 100 alphanumeric characters are allowed.
4. Click **Update**.

## Add My Telephone Numbers - Company Users

All users are required to have at least one telephone number. Up to six phone numbers are allowed.

1. Click **Administration > Self Administration > Personal Preferences**
2. Click the **Add** link. This link does not appear if you have six telephone numbers defined.
3. Complete the following fields:

**Phone Type**                      **Home, Work, Work2, Mobile, Mobile2, and Other.** Each type can be used once.

If enabled for your company, domestic mobile telephone numbers can be used to receive alert notifications. Message and data rates may apply; see your carrier for details.

**Country/Region**                The numeric country code associated with the telephone number. Select from a list of country names. These are mapped to the appropriate one to three-digit country code.

**Telephone Number**              The telephone number (up to 30 characters).

**Extension (optional)**            For **Work** and **Work 2**. Required when an extension is needed to reach the user within an office phone system. Up to 16 numeric characters are allowed.

Some phone systems require entry of additional characters, often referred to as control codes, to reach an extension. The following control codes are allowed: Pound (#), Star (\*), Comma (short pause - approximately 2 seconds), Period (long pause - approximately 5 seconds).

Multiple comma and period characters can be placed before or after an extension to add pause time during system generated calls that are made to users for the purpose of validating their information.

For example, . . 12345. This example extension has a 10 second pause time before the extension and a 5 second pause time after. During a system generated call, the system waits 10 seconds before dialing the extension and waits 5 seconds after it dials before playing an affirmation message such as "Hello. This is Example Bank. Please press 1 to...".

4. If available, click the **Use With Alerts** option beside a mobile phone number so it appears as a delivery option for the alerts that are available for SMS/text message delivery. This option can only be assigned to one mobile device at a time.

**Note:** *A welcome message is sent to the selected mobile number after you set up your first alert for SMS/text delivery.*

5. Click **Add**.

If your company requires multiple approvals for Administration, the user profile is submitted for approval by other Administrators in your company

## Change Telephone Numbers - Company Users

All users are required to have at least one telephone number. Users can choose to have up to six phone numbers.

1. Click **Administration > Self Administration > Contact Preferences**.
2. Click the edit icon () link beside the number you want to change.
3. Change the telephone number as needed and then click **Update**.

If your company requires multiple approvals for Administration, the user profile is submitted for approval by other Administrators in your company.

## Delete Telephone Numbers - Company Users

1. Click **Administration > Self Administration > Personal Preferences**.
2. Click the delete icon () beside the number you want to delete. If the number you delete is the only destination set up to receive mandatory alerts, then your primary email address is automatically set up to receive mandatory alerts after the number is deleted.

**Note:** *The delete icon does not appear if only one telephone number is set up.*

- a. If you selected to delete a mobile number that is set up to receive text message alerts click **Delete**.

Marketing	Yes
Informational	Yes

## Stop Text Message Delivery from a Mobile Device

1. Reply with `stop` to any text message alert you receive.

## Re-enroll a Mobile Device for Text Message Delivery

If you have stopped SMS/text message delivery to your mobile device you can re-enroll it by completing the steps in this task.

1. [Delete the mobile phone number.](#)

2. [Re-add the mobile phone number.](#)

**Note:** Ensure you select the **Use With Alerts** option when re-adding the domestic mobile phone number. This option can only be assigned to one mobile device at a time.

3. [Change your alert subscriptions](#) so that one or more alerts are set up to be delivered to the mobile phone number.

## Supported Telephone Control Codes

Telephone control codes can be used for companies that do not allow direct dialing of an extension.

For example, if the phone system plays a message and requires pressing the pound key (#) to reach an extension, you can account for the message and pound key by including the appropriate control codes. The following control codes are allowed:

- Digits 0-9
- Pound (#)
- Star (\*)
- Comma (,) - short pause (about 2 seconds)
- Period (.) - long pause (about 5 seconds)

Control codes are not masked or hidden. Extensions continue to be preceded by the "x" character, with no spaces; example: (414) 286-2489 x,#..00000

## Opt In/Out of Splash Pages

If enabled for the company, users can decide if they want to receive informational and/or marketing splash pages.

1. Click **Administration** > **Self Administration** > **Personal Preferences**.
2. Click the edit icon () in the **Splash Opt Out** section.
3. Do one of the following: Click the slide toggle () so it changes to **No** for the splash page type you no longer want to receive.

**Opt in to splash pages**

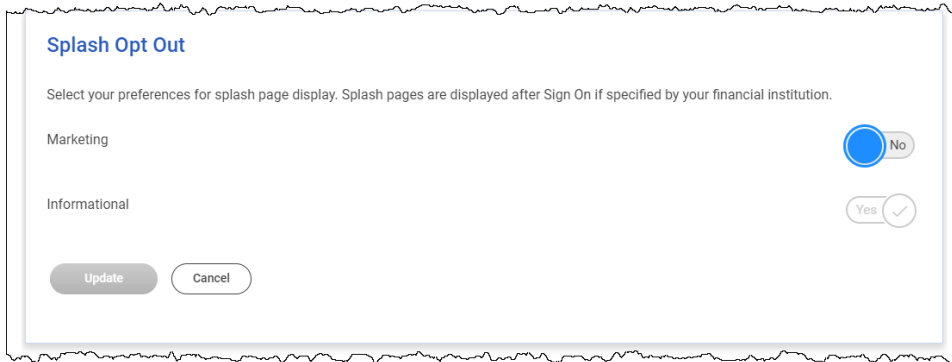

Click the slide toggle () so it changes to **No** for the splash page type you want to receive.

### Opt out of splash pages

Click the slide toggle (  ) so it changes to **Yes** for the splash page type you no longer want to receive.

4. Click **Update**.

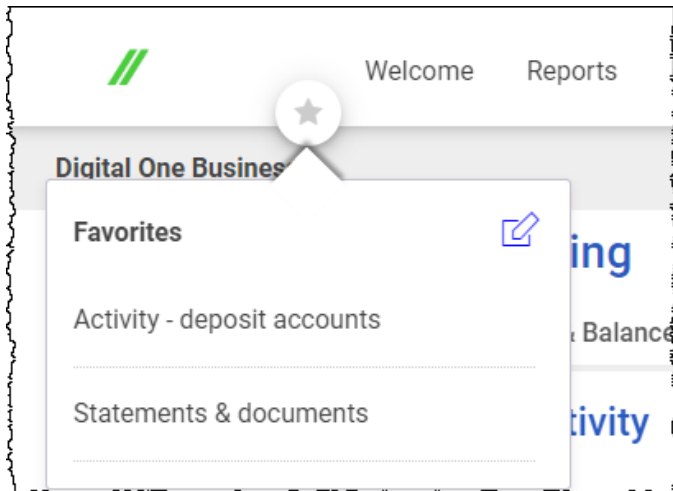

#### Personal Preferences Page Sample

## About Favorites

Favorites are hyperlinks to frequently used pages (up to five pages). A company user's entitlements determine the pages available for selection.

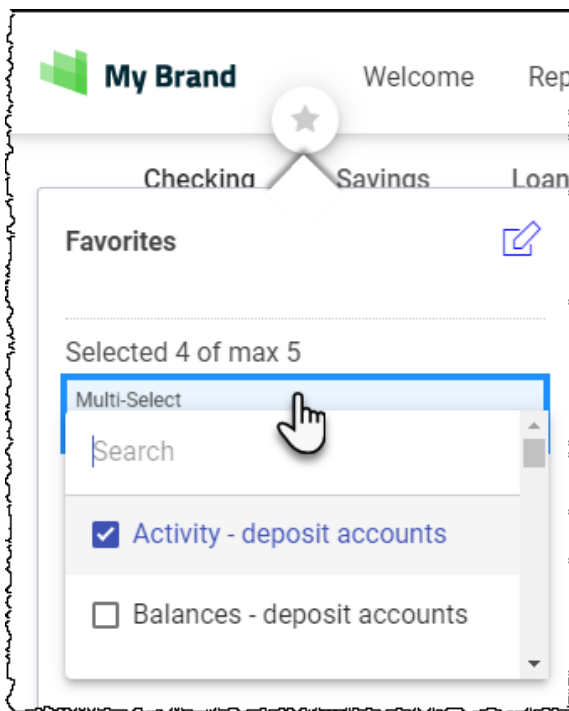

#### Favorites Sample

## Add Favorites

1. Click the star icon (  ) displayed by the main navigation menu.
2. Click the **Multi-Select** drop-down and click the check box beside each page you want to add as a favorite. You can also find a page by typing the name into the **Search** field.
3. Click someplace outside of the **Multi-Select** drop-down and then click **Update**.

Favorites Sample

## Delete Favorites

1. Click the star icon (  ) displayed by the main navigation menu.
2. Click the edit icon (  ) beside the **Favorites** heading.
3. Click the delete icon (  ) beside the favorite you want to delete.

## View Activity - Company Users

Company users who have the Administration role can view activity for all users. Company users who do not have the Administration role can only view their own activity.

1. Click **Administration > Self Administration > User Activity Report**.
2. Complete the following fields:

<b>Output To</b>	<b>Screen (HTML) or CSV.</b>
<b>Function</b>	The actions taken by the user. Service entitlements determine the functions available for selection.
<b>User ID (if available)</b>	<b>All Users</b> - Include all users in the company.
	<b>Enter User ID</b> - Type the ID of a specific user in the company.
	<b>Specific User</b> - Select the user ID from the associated drop-down list.
<b>Date</b>	<b>Specific Date</b> - Selected by default and defaults to the current date.
	<b>Date Range</b> - Select or type from and to dates.

3. Click **Generate Report**

# COMPANY ADMINISTRATION

## Unlock a Company User

Unlock a user's Digital One Business account.

1. Click **Administration > Company Administration > Manage Users**.
2. Click the **System Access** link beside the user whose account you want to unlock.
3. Clear the **User Locked** check box and then click **Save Changes**.
4. If applicable, contact your financial institution to have the company user's token PIN reset.

Confirm Password (Optional)

First Name  
Tom

Last Name  
User

Additional Information (Optional)  
On leave until 10/10/2020

User Locked (Optional)

Save Changes   Cancel

## Unlock a Software Token License

Unlock a company user's software token license that is locked because of three unsuccessful passcode entry attempts. Unlocking a software token license does not cause the company user to re-activate their mobile device or change their authentication credentials for the software token app.

**Note:** *This capability might not be available to all administrators.*

1. Click **Administration > Company Administration > Manage Users**.
2. Click the **System Access** link beside the company user whose license you want to unlock.
3. Go to the **User Software Token Maintenance** section and then click the **reset token user** link.
4. On the pop-up box, click **Reset User**.

## Change a Company User's Password

1. Click **Administration > Company Administration > Manage Users**.
2. Click the **System access** link beside the user whose password you want to change.
3. Complete the following **User Information** fields:

**Password** The user's password. See the [Company Password Requirements](#) section for details.

**Confirm password** The password that was typed into the **Password** field.

User Profile - Edit User Information Page Sample

4. Click **Save Changes**.

## Change a Company User's Telephone Number

1. Click **Administration > Company Administration > Manage Users**.
2. Click the link in the **User ID** column for the user whose telephone number you want to change.
3. Click the edit icon () beside the **Contact Information** heading.
4. Change the **User Telephone Number** fields as needed:

**Label** **Home, Work, Work2, Mobile, Mobile2, and Other.** Each label can be used once.

If enabled for your company, domestic mobile telephone numbers can be used to receive alert notifications. Message and data rates may apply; see your carrier for details.

**Country/Region** The numeric country code associated with the telephone number. Select from a list of country names. These are mapped to the appropriate one to three-digit country code.

**Telephone  
Number**

The telephone number separated by the one of the following characters: left and right parentheses, hyphen, period, or spaces. Up to 30 characters (digits and separator characters) are allowed.

**Extension  
(optional)**

Required when an extension is needed to reach the user within an office phone system. Up to 16 numeric characters are allowed.

Some phone systems require entry of additional characters, often referred to as control codes, to reach an extension. The following control codes are allowed: Pound (#), Star (\*), Comma (short pause - approximately 2 seconds), Period (long pause - approximately 5 seconds).

Multiple comma and period characters can be placed before or after an extension to add pause time during system generated calls that are made to users for the purpose of validating their information.

For example, . . 12345. This example extension has a 10 second pause time before the extension and a 5 second pause time after. During a system generated call, the system waits 10 seconds before dialing the extension and waits 5 seconds after it dials before playing an affirmation message such as "Hello. This is Example Bank. Please press 1 to...".

5. Click **Save Changes**.

6. If your company requires multiple approvals for Administration, click **Submit**.

Once a user profile has been submitted for approval, further changes cannot be made until all approvals have been received or the request is canceled. The changes to the user profile become effective once the required number of approvals is received.

## Request a Replacement Hardware Token for a Company User

Request a hardware token replacement when a company user's original hardware token device has been lost or broken.

1. Click **Administration > Company Administration > Manage Users**.
2. Click the link in the **User ID** column for the user you want to edit.
3. Click the edit icon () beside the **User Information** heading.
4. Clear the serial number from the **Token Device Serial Number** field and then click **Save Changes**.

## Register a Hardware Token for a Company User

Each token device is registered to a specific user.

**Note:** *The fulfillment date is the date the financial institution is sending the token device. This date can be used to monitor the fulfillment status of each user's token device.*

1. Click **Administration > Company Administration > Manage Users**.
2. Click the link in the **User ID** column for the user you want to edit.
3. Click the edit icon () beside the **User Information** heading.
4. Type the token serial number into the **Token Device Serial Number** field.
5. Click **Save Changes**.

The token device is registered to the user and the user is required to use the token at their next sign on.

## View Unsuccessful Company User Login Attempts

Company administrators should consider reviewing invalid/unsuccessful login attempts regularly for suspicious activity.

1. Click **Administration > Company Administration > Invalid Login Report**.
2. Complete the following fields:

<b>Output To</b>	<b>Screen (HTML), CSV file, or PDF.</b>
<b>Date</b>	<b>Specific Date or Date Range.</b>
<b>Filter</b>	<b>All Users or Specific User.</b>
3. Click **Generate report**.

## Determine Software Token Activation

1. Click **Administration > Self Administration > User Activity Report**.
2. Complete the following fields:

**Output To**                      Accept the default **Screen** option or select **CSV file**.

**Function**                        Select **Token Activation**.

**Note:**    *Service entitlements determine the functions available for selection.*

**User ID**                         **All Users, Enter User ID, or Specific User.**

**Date**                              **Specific Date or Date Range.**

3. Click **Generate Report**.

## User Profiles

### About Company User Profiles

A profile consists of a user's contact information, roles, entitled services and accounts, and limits. Profiles are created and managed by company administrators.

The company user creation process is divided into stages:

Stage	Description
Profile & Roles	The user's demographic information, including e-mail and phone number. The <a href="#">role or roles</a> user has in the company (Administration, Approval, and/or Setup).
Services and Accounts	The services and accounts the user can use and, if applicable, the user ID required for accessing an external service, such as Commercial Capture Xpress (CCX).
Limits	The user-specific limits for ACH, Wire, and Bill Pay services (depending on which services are enabled for the user).
Verification	A page that gives Administrators an opportunity to review the profile information before saving or submitting it.

User profiles are automatically saved after each stage is completed. Administrators can save a user profile at any point in the creation process and complete the setup later. Saved user profiles appear in the **Manage Saved Users** section on the *User Administration* page and remain there until the profile is completed or deleted.

## Add Company Users

1. Click **Administration > Company Administration > Manage Users**.
2. Click **Create New User**.
3. Complete the **User Information** fields:

<b>User ID</b>	A user identification number. See the <a href="#">Company User ID Requirements</a> section for details.
<b>Password</b>	A temporary password the user only uses once at their first sign-on. See the <a href="#">Company Password Requirements</a> section for details.
<b>Confirm Password</b>	The password that was typed into the <b>Password</b> field.
<b>First Name</b>	The user's first name (up to 80 alphanumeric characters).
<b>Last Name</b>	The user's last name (up to 80 alphanumeric characters).
<b>Primary E-mail Address</b>	The user's main email address (up to 100 alphanumeric characters).

**Secondary E-mail Address (optional)** The user's back-up email address (up to 100 alphanumeric characters).

**Additional Information (optional)** Descriptive text about the user (up to 30 alphanumeric characters).

4. Complete the **User Telephone Number** fields:

**Label** **Work, Work 1, Mobile, Mobile 1, Home, and Other.** Each label can be used once, for a maximum of six phone numbers. At least one telephone number is required.

**Country/Region** Used for the numeric country code associated with the telephone number. Select from a listing of country names, which are mapped to the appropriate one to three-digit country code.

**Area/City Code & Number** The telephone number. Up to 30 characters are allowed.

**Extension (optional)** Required when an extension is needed to reach the user within an office phone system. Up to 16 numeric characters are allowed.

Some phone systems require entry of additional characters, often referred to as control codes, to reach an extension. The following control codes are allowed:

- Pound (#)
- Star (\*)
- Comma (short pause - approximately 2 seconds)
- Period (long pause - approximately 5 seconds)

Multiple comma and period characters can be placed before or after an extension to add pause time during system generated calls that are made to users for the purpose of validating their information.

For example, . . 12345. This example extension has a 10 second pause time before the extension and a 5 second pause time after. During a system generated call, the system waits 10 seconds before dialing the extension and waits 5 seconds after it dials before playing

an affirmation message such as "Hello. This is Example Company. Please press 1 to...".

5. Click **Continue**.
6. **Optional:** Copy the roles, services, and account entitlements of an existing user to the new user:
  - a. Click **Copy User**.
  - b. Click the **Select User** link.
  - c. Click the radio button beside the user you want to copy and then click **Copy User**.
7. **Optional:** Select one or more **User Roles**:
  - **Allow this user to setup templates**
  - **Allow this user to approve transactions**
  - **Grant this user administration privileges**
8. Click **Continue**.
9. **Optional: Enable Services & Accounts:**
  - a. Click the add icon () beside each service to entitle and if applicable, select the accounts to entitle and/or enter the user's ID for any external application.
10. Click **Continue**.
11. If applicable, change the ACH, wire, and/or bill payment limits:
  - a. If applicable, click the edit icon () beside the **ACH** limits to change them:**User Daily Limit**The maximum allowable cumulative amount of all successful transactions in a given day for a group of ACH services.**User Daily Service Limit**The maximum allowable cumulative amount of all successful transactions in a given day for a particular ACH service.**User Daily Account Limit**The maximum allowable cumulative amount of all successful ACH transactions on a per account basis in a given day.
  - b. If applicable, click the edit icon () beside the **Wire** limits to change them:**User Daily limit**The maximum allowable cumulative amount of all successful transactions in a given day for a group of wire services.**User Daily Service Limit**The maximum allowable cumulative amount of all successful transactions in a given day for a particular wire service.**User Daily Account Limit**The maximum allowable cumulative amount of all

successful transactions on a per account basis in a given day. **User Individual Transaction Limit**The maximum allowable amount for each transaction for a particular account.

- c. If applicable, click the edit icon (✎) beside the **Bill Payment** limits to change them:  
**User Transaction Limit**The maximum allowable amount a company user can enter for a bill payment transaction.  
**User Transaction Approval Limit**The maximum allowable amount a company user can approve for a bill payment transaction entered by another user.  
Users given the Administration role automatically inherit the company's transaction limits. In this instance the limits cannot be changed.

- 12. If the services enabled do not have limits, click **Continue**.
- 13. Verify the user's profile as needed and then click **Create User**.

For companies that do not require multiple approvals for Administration, clicking **Submit** creates and activates the user. For companies that require multiple approvals for Administration, clicking **Create User** submits the user profile for approval by other Administrators in the company.

**New User - Verification Page Sample**

## Delete Company Users

Company user profiles cannot be recovered once deleted. If your company requires multiple approvals for user administration, a user profile that is pending changes cannot be deleted until all of the required approvals have been received for the changes or the change request is canceled.

1. Click **Administration > Company Administration > Manage Users**.
2. Click the link in the **User ID** column for the user you want to delete.
3. Click the delete icon (⊗) beside the **User Information** heading.
4. Review the information as needed and then click **Delete User**.

## About Saved Company User Profiles

Saved users are new user profiles that have been saved in an incomplete state. New user profiles are automatically saved at each stage in the user creation process. Saved user profiles appear under the **Manage Saved Users** section on the *User Administration* page until the setup is complete or they are deleted. Saved profiles cannot be used to sign on to the system until the setup is complete. Saved profiles cannot be copied.

### User Administration Page Sample

The screenshot shows the 'Company Administration' page with a navigation bar containing 'Manage Users', 'Account Information', 'Account Management', 'Approval Settings', 'User Setup Report', and 'Invalid Login Report'. The 'Manage Users' link is active. Below the navigation bar is the 'User Administration' section with a sub-heading and a paragraph: 'Review the options listed below for available user administration tasks. To quickly entitle a new account for company users, go to [Express Account Management](#).' There are two sub-sections: 'New User' with a 'Create New User' button and a note about copying existing users; and 'Manage Existing Users' with a table of active users. Below that is the 'Manage Saved Users' section with a table of saved users, including a delete icon (⊗) for the user 'JDHJDHKJ'.

User ID	First Name	Last Name	Status
<a href="#">TESTUSER</a>	Test	User	Active

User ID	First Name	Last Name	Additional Info
<a href="#">JDHJDHKJ</a>	djkd	djkdk	

## Complete Saved Company User Profiles

1. Click **Administration > Manage users**.
2. In the **Manage Saved Users** section, click the link in the **User ID** column for the company user you want to complete.
3. Follow the steps in the [Adding Company Users](#) or [Copying Company Users](#) section of this document.

## Delete Saved Company User Profiles

1. Click **Administration > Manage users**.
2. In the **Manage Saved Users** section, click the delete icon (✕) beside the company user you want to delete.
3. Verify the information as needed and then click **Delete User**.

## Approve Company User Changes

1. Click **Approvals > Users**.
2. Select one or more company user changes to approve and then click **Approve**.

The changes to the user profile become effective once the required number of approvals is received.

### Approvals - Users Page Sample

<input type="checkbox"/>	User ID	First Name	Last Name	Approval Status	Approval Action Pending
<input type="checkbox"/>	<a href="#">ADDUSER</a>	add	user	1 of 1 Received	Add User
<input type="checkbox"/>	<a href="#">ADMIN</a>	Ankit	Sharma	1 of 1 Received	Edit User
<input type="checkbox"/>	<a href="#">ANKIT45</a>	ankit34	sharma445	1 of 1 Received	Add User
<input type="checkbox"/>	<a href="#">ARUN56</a>	ankit56	sharma	1 of 1 Received	Add User
<input type="checkbox"/>	<a href="#">NEWUSER</a>	new	user	1 of 1 Received	Add User

## Cancel Company User Changes

1. Click **Approvals > Users**.
2. Click the link in the **User ID** column for the user whose changes you want to cancel.
3. Click the **Cancel user profile request** link.
4. Verify the user information as needed and then click **Cancel Request**.

## View Profile Details for Company Users

1. Click **Administration > User Setup Report**.
2. Select an **Output To** option: **Screen (HTML)**, **CSV file**, or **PDF**.
3. Select a **User ID** option: **All Users** or **Specific User**.
4. Select a **Report By Role** option: **All**, **User**, **Setup**, **Administration**, or **Approval**.
5. Click **Generate Report**.
6. If applicable, click the **Download** link beside the report on the *Search User Setup Reports* page.

## Transaction Limits

### About Transaction Limits

Limits help reduce the risk of fraud by allowing companies to restrict the amount of money their users can collect, pay, or wire.

Company limits are set by the financial institution and apply to all users in a particular company. User limits only apply to a particular user in a company and override the company-defined limits when they are more restrictive. A company user's limits cannot exceed the company limits. If a company limit is

changed so it is more restrictive than a user's limit, the user limit is automatically set to the company limit.

### Limit Types

Limit Name	Description	Service
Daily cumulative	The maximum allowable cumulative amount of all successful transactions in a given day for a group of services.	ACH, Wire
Daily by service	The maximum allowable cumulative amount of all successful transactions in a given day for a particular service.	ACH, Wire
Daily by account	The maximum allowable cumulative amount of all successful transactions on a per account basis in a given day. Each account can have two cumulative limits: one for all ACH transactions and one for all Wire transactions.	ACH, Wire
Daily by account - by transaction	The maximum allowable amount for each transaction for a particular account.	Bill Payment, Wire
Maximum transaction approval	The maximum allowable amount for a bill payment transaction to be approved by a user.	Bill Payment

### ACH Limit Hierarchy

Limits can be defined by service, account, and transaction.

ACH limit checking proceeds in the following order:

1. User Daily Limit
2. User ACH Service Limit
3. User's Company Daily Limit
4. User's Company ACH Service Limit
5. User Daily Account Limit
6. Company Daily Account Limit

7. Company Transaction Detail Limit

## Wire Limit Hierarchy

Limits can be defined by service, account, and transaction.

Wire limit checking proceeds in the following order:

1. User Daily Limit
2. Company Daily Limit
3. User Daily Account Limit
4. Company Daily Account Limit
5. User Transaction Limit
6. Company Transaction Limit

## Bill Payment Hierarchy

Bill Payment limit checking proceeds in the following order:

1. User Transaction Limit
2. User's Company Transaction Limit

## Change Transaction Limits

1. Click **Administration > Company Administration > Manage Users**.
2. Click the link in the **User ID** column for the user you want to change.
3. If applicable, change the ACH, wire, and/or bill payment limits:
  - a. If applicable, click the edit icon () beside the **ACH** limits to change them:
    - User Daily Limit**The maximum allowable cumulative amount of all successful transactions in a given day for a group of ACH services.
    - User Daily Service Limit**The maximum allowable cumulative amount of all successful transactions in a given day for a particular ACH service.
    - User Daily Account Limit**The maximum allowable cumulative amount of all successful ACH transactions on a per account basis in a given day.
  - b. If applicable, click the edit icon () beside the **Wire** limits to change them:
    - User Daily Limit**The maximum allowable cumulative amount of all successful transactions in a given day for a group of wire services.
    - User Daily Service Limit**The maximum allowable

cumulative amount of all successful transactions in a given day for a particular wire service.**User Daily Account Limit**The maximum allowable cumulative amount of all successful transactions on a per account basis in a given day. **User Individual Transaction Limit**The maximum allowable amount for each transaction for a particular account.

- c. If applicable, click the edit icon () beside the **Bill Payment** limits to change them:**User Transaction Limit**The maximum allowable amount a company user can enter for a bill payment transaction.**User Transaction Approval Limit**The maximum allowable amount a company user can approve for a bill payment transaction entered by another user. Users given the Administration role automatically inherit the company's transaction limits. In this instance the limits cannot be changed.
4. If multiple approvals are required for administration changes, do one of the following:
- If you are done making changes to the limits, click **Submit**.
  - If you have more changes to make to the limits, click **Continue**.

## Roles and Service and Account Entitlements

### About Company User Roles

Roles allow companies to divide responsibilities among their users and reduce the risk of fraud.

There are three roles that can be assigned to a company user:

1. Setup
2. Approval
3. Administration

A company user can have one or more roles assigned or none.

---

#### No role

A user without an assigned role can:

- Enter transactions for services and accounts to which they are entitled
  - Enter issues, view reconciliation statements, and view decisions made on exceptions for services and accounts to which they are entitled.
-

---

**Setup** A user with the Setup role can create and maintain templates for transfer and payment services and accounts to which they are entitled. This role is not applicable to account reconciliation or positive pay services. App

---

**Approval** A user with the Approval role can:

- Approve and transmit transactions for transfer and payment services and accounts to which they are entitled.
- Approve issues, issue files, decisions made on exceptions, and decision files for services and accounts to which they are entitled.

---

**Administration** A user with the Administration role is often referred to as an administrator. An administrator can create and maintain company user profiles. This includes assigning company users with their login credentials, roles, service and account entitlements, and transaction limits. Administrators can also rename accounts, reset passwords, and modify the number of approvals required for requests.

When a company is set up on Digital One Business a user in the company is designated as the primary user and assigned the Administration role. The primary user is entitled to all services and to all accounts associated with those services based on the company's profile.

A company can have multiple administrators.

---

## Bill Pay Roles

The Digital One Business role assigned to a company user determines their Bill Pay role.

Digital One Business Role	Bill Pay Role	Bill Pay Privilege	Available Task
Administration	Administrator	Make Payments	Enter current day or future-dated transactions up to the company limit, regardless of any other limits set for the user
		Approve Payments	Approve any transaction up to the company limit, regardless of any other limits set for the user. Transactions can be approved in advance of their effective date.

---

Digital One Business Role	Bill Pay Role	Bill Pay Privilege	Available Task
		Add / Change Payees	Maintain details of payees.
		Make expedited payments	Make an expedited payment.
		Add / Change automatic rules	Set up recurring payments.
		View Payment Reports	View payment reports. View audit reports.
Setup	User	Add / Change Payees	Maintain payee details.
Approval	User	Approve Payments	Approve transactions up to their approval limit. Transactions can be approved in advance of their effective date.
User (No role)	User	Make Payments	Enter current-day or future-dated transactions up to their entry limit
		View Payment Reports	View payment reports.

**Note:** *Payments created by company users who do not have the Approval or Administration role require approval by someone else in their company; none of the payments are auto approved. Additionally, a company user who has the Administration role in Digital One Business is automatically given access to all accounts set up in the Bill Pay system regardless of their Bill Pay account entitlements in Digital One Business.*

## Change a Company User's Roles

1. Click **Administration > Company Administration > Manage Users**.
2. Click the link in the **User ID** column for the user whose roles you want to change.
3. Click the edit icon (  ) beside the **Roles** heading.
4. Add or remove the **User Role** options as needed:
  - Allow this user to setup templates
  - Allow this user to approve transactions
  - Grant this user administration privileges
5. Click **Save changes**.

### Edit Roles

Edit the user's roles and click "Save Changes". Editing the user roles could effect the user's access and functionality, including the cancellation of scheduled requests.

[Return to User Profile](#)

User: ANKIT1 (Ankit Sharma)

#### User Roles (Optional)

- Allow user to setup templates.  
(This entitles the user to template setup and template approval capabilities for only those services and accounts to which the user has been entitled.)
- Allow this user to approve transactions  
(This entitles the user to transmit capabilities for only those services and accounts to which the user has been entitled.)
- Grant this user administration privileges  
(This will allow the user to add, modify, copy and delete users, modify their roles, services and account access, rename accounts, and modify the number of approvers required for requests.)

## About Entitlements - Company Users

Entitlements provide companies with another control to divide responsibilities among their users and reduce the risk of fraud. For instance, one company user could be tasked with entering transactions while another is responsible for approving/transmitting them.

There are two types of entitlements:

1. Service
2. Account

As the names suggest, service entitlements grant access to services and account entitlements grant access to accounts. For many services these entitlements work together to give company users full

access to a service and its features. For services that have associated account entitlements, if a company user is only entitled to the service but not the accounts, the menu navigation for the service is visible but access to the pages is limited and the service is unusable.

A company's administrator is responsible for assigning entitlements to its users.

### Service Entitlements

Service entitlement names typically match or reflect the service name to which it provides access. For example, Internal Transfer is the service entitlement name for the Internal Transfer service. Access to some services, such as Deposit Account Reporting and Positive Pay, are controlled through multiple service entitlements.

Service entitlement names typically match or reflect the service name to which it provides access. For example, Stop Payment is the service entitlement name for the Stop Payment service.

### Account Entitlements

Account entitlement names indicate what they allow a company user to do. The service entitlement determines the account entitlements a company user sees.

Account Entitlement	Function
<b>Entitled Account</b>	Allows a company user to: <ul style="list-style-type: none"> <li>View an account and its activity and create transactions from the selected account. For the Account Management service, this allows a company user to initiate a request to modify and/or close an account.</li> <li>View outstanding issues, stale issues, exception decisions, and status on issues for the selected account.</li> </ul>
<b>Entitle Product</b>	Allows a company user to initiate a request to open an account.
<b>Approve</b>	Allows the end user to approve a request to open, modify, and/or close an account.
<b>Allow Decision/Approve</b>	Allows a company user to approve and make decisions on exceptions for the selected account. This entitlement is applicable to account reconciliation and positive pay services.

<b>Account Entitlement</b>	<b>Function</b>
<b>Allow Entry</b>	Allows a company user to enter and update issues for the selected account. This entitlement is applicable to account reconciliation and positive pay services.
<b>Allow Approve</b>	Allows a company user with the Approval role to approve manually entered issues for the selected account. This entitlement is applicable to account reconciliation and positive pay services.
<b>Allow Transmit</b>	Allows a company user with the Approval role to approve transactions for an account to which they are entitled.
<b>Receive</b>	Specific to the File Download service. While not technically an account entitlement, this entitlement allows company users to download specific reports.
<b>Entitled To Account</b>	Specific to the Internal Transfer and Multiple Account Transfer services. Allows a company user to view an account, completed transfers, and create transactions to transfer money to it.
<b>Entitled From Account</b>	Specific to the Internal Transfer and Multiple Account Transfer services. Allows a company user to view an account, completed transfers, and create transactions to transfer money from it.

**Note:** *No account entitlement is needed to import or approve check issue files.*

## Dependent Services

Dependent services are services that must be enabled together. For example, when enabling the Deposit Reporting service for a company user the Information Reporting service must also be enabled. For example, when enabling the Positive Pay Exception Maintenance service for a company user the Positive Pay service must also be enabled.

<b>If Enabled</b>	<b>Also Enable</b>
Incoming Wire Report	Account Reports or Deposit Reporting or Deposit Account Reporting
Loan Advance	Loan
Loan Payment	Loan
Account Reports	Information Reporting
Deposit Account Reporting	Information Reporting
Deposit Reporting	Information Reporting
Imaging Returns	Information Reporting
Positive Pay Issue Maintenance	Positive Pay
Positive Pay Exception Maintenance	Positive Pay
Payee Positive Pay	Positive Pay
Positive Pay Exception Correction	Positive Pay and Positive Pay Exception Maintenance

**Note:** *The service in the right column must be enabled for the service in the left column to have any effect on the user's entitlements.*

## Add Service and Account Entitlements

1. Click **Administration > Company Administration > Manage Users**.
2. Click the link in the **User ID** column for the user you want to change.

3. Click the edit icon () beside the **Edit Services & Accounts** heading.
4. Click the add icon () beside each service to enable and, if applicable, select the accounts to entitle and/or enter the user's ID for any external application.
5. Click **Save Changes**.
6. If your company requires multiple approvals for user administration, click **Submit**. Once a user profile has been submitted for approval, further changes cannot be made until all approvals have been received or the request is canceled. The changes to the user profile become effective once the required number of approvals is received.

## Remove Service and/or Account Entitlements

1. Click **Administration > Company Administration > Manage users**.
2. Click the link in the **User ID** column for the user you want to change.
3. Click the edit icon () beside the **Edit Services & Accounts** heading.
4. Do one or more of the following:
  - To remove a service and its entitled accounts, click the delete icon () beside it.
  - To remove account entitlements for a service, click the edit icon () beside the service and then select the accounts to remove.
5. Click **Save Changes**.

## Entitle New Accounts to Services

1. Click **Administration > Company Administration > Account Management**.
2. Click the **User** drop-down and select a user. All user profiles in the company except for saved user profiles are included. Users are shown in alphabetical order in this format: **first name last name - user ID**.
3. Click the **Search** drop-down and choose an account. Contains all accounts in the company. Accounts are shown in alphabetical order in this format: **account description - account type - masked account number**. If more than 10 accounts are available, then a **Search** link appears beside the **Account** drop-down so that a specific account can be more easily located.
4. Click **Go**.

5. Assign service and account entitlements as appropriate:

**Service** Service entitlement names typically match or reflect the service to which it provides access. Some services may have sub-entitlements that determine access to specific tasks or features.

**Entitle Account** For account reconciliation and positive pay services, this account entitlement allows a company user to view outstanding issues, stale issues, exception decisions, status on issues, and enter and update issues for the selected account (depending on the services entitled).

For other services, this account entitlement allows a company user to view an account and its activity, and create transactions/requests from/for the selected account.

**Note:** *For the Internal Transfer and Multiple Account Transfer services, From and To check boxes allow you to choose whether a company user can transfer money from and/or to a specific account.*

**Allow Transmit** For account reconciliation and positive pay services, this account entitlement allows a company user to approve and make decisions on exceptions for the selected account and allows those with the Approval role to approve manually entered issues for the selected account (depending on the services entitled).

For other services, this account entitlement allows a company user with the Approval role to approve transactions for the selected account.

**Note:** *The **Allow Transmit** column only appears when the transmit function is applicable to the service and the selected company user has the Approval role.*

**Approve** Allows a company user to submit a request to close or modify an account.

**Note:** *The **Entitle Account**, **Allow Transmit**, and/or **Approve** account entitlements may not be applicable for some services.*

6. Click **Save Changes**.

## Change an Account Description

Account descriptions (nicknames) help company users to more easily identify specific accounts when they are used in transactions. Account numbers should not be used for account nicknames.

1. Click **Administration > Company Administration > Account Information**.
2. Click the link in the **Description** column for the account you want to change.
3. Type a name or description (up to 80 alphanumeric characters) into the **Description** field.
4. Click **Save Changes**.

## Approvals

### About Approvals

Multiple approvals help companies reduce the risk of fraud by ensuring a change or transaction is approved by more than one company user before it is processed.

### Administration

Multiple approvals can be required for company user profile additions, changes, and deletions.

### Transactions

Multiple approvals can be required to send a transaction and can be based on transaction amount. The number of approvals required can vary based upon the dollar amount of a request. Companies with multiple users can require transactions to be approved by users other than the ones who entered them, provided the setting is available for the service. The number of approvals required for a service should not be greater than the number of users authorized to approve/transmit the transactions.

Multiple approvals can be set uniquely by service.

### Templates

Multiple approvals can be required for ACH and Wire template additions, changes, and deletions.

Multiple approvals can be set uniquely by service.

## Issues and Decisions

Multiple approvals can be required for exception decisions, imported decision files, issues, and imported issue files. The number of approvals required should not be greater than the number of users authorized to approve the issues/decisions.

### Require Multiple Approvals for Transactions

1. Click **Administration > Company Administration > Approval Settings**.
2. In the **Approvals Required for Transactions** section, define the approval settings for the service:

<b>Request Amount</b>	Type the amount of the transaction.
<b>Approvals If Less or Equal</b>	Type the number of approvals required when the transaction amount is less than or equal to the <b>Request Amount</b> .
<b>Approvals If Greater</b>	Type the number of approvals required when the transaction amount exceeds the <b>Request Amount</b> .
3. **Optional:** If applicable, require transactions to be approved by users other than the users who entered them.
  - a. Review your company's scheduled transactions and determine if any have been approved by the entry user (e.g., user who created the schedule). If a scheduled transaction has been approved by the entry user, have that user delete and recreate the schedule. If this step is not performed, then the scheduled transactions with an approval applied by the entry user will fail and be placed in the approval queue where the additional approval(s) can be applied.
  - b. Click the **Require Separate Entry From Approval** option. Services that have a checkmark ( ✓ ) are required by the financial institution to have this control and cannot be changed.
4. Click **Save Changes**.

## Service Administration

### Change the Company Stale Date - Full Reconciliation

The stale date is the number of days after which a check written for the corresponding account is considered stale.

1. Click **Administration > Service Administration > Full Account Reconciliation.**
2. Click the **Edit** link.
3. Type the desired number of days into the **Company Stale Date Setting** field.

The company stale date cannot exceed the days defined for the **Maximum Stale Date Setting**. If the new company stale date is more restrictive than the stale date setting for an individual

account, then the stale date setting for that account is automatically updated to match the new company stale date setting.

4. Click **Save**.
